## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### 1. **Economy and Markets:**

Major leading indicators suggest that the economic activity is gradually improving. This is driven by improving global demand and a remonetisation-led pickup in domestic activity. The International Monetary Fund (IMF) expects India to resume the 8% growth path in the medium term. This should happen as soon as the short-term dislocation to consumption from demonetisation passes. The nation is expected to remain the fastest growing economy on the back of high private consumption levels and gradually implemented domestic reforms. Your Company sees growth picking up significantly, supported by a normal monsoon, modest costs of borrowing, pay hikes for state government employees and stronger export demand. The Goods & Services Tax, (GST) implemented in July 2017, will also have long term structural benefits, despite short-term execution and adjustment risks during the course of FY18.

2. **Financial Review:** During the year under review, income from operations stood at Rs3,425,195/- and Profit after tax stood at Rs1,212,004/-.

3. **Opportunities and Threats:** The Board decided defocusing in the lending business the same being not the expertise segment of current management however the same is on hold till the time management is confident to enter different segment to make is possible for stake holders growth in long term without any adverse effect.

As we get into an environment which is likely to be largely positive over medium to long term, there may be significant roadblocks in the shorter term. The implementation of GST is likely to cause certain short term disturbances. Your Company acknowledges these possible negative factors and has a plan to mitigate them through its deep domain knowledge, strong risk framework and an efficient collection mechanism.

4. **Risk and Concern:** Bullish trend in Equity Market, Commodities and Real estate will affect volume and profitability of Government Securities business. Changes in the rate of Interest will affect Company's Profitability.

5. **Internal Control System and their adequacy:** The internal control system is looked after by Directors themselves, who also looked after the day to day affairs to ensure compliance of guide lines and policies, adhere to the management instructions and policies to ensure improvements in the system. The Internal Audit reports are regularly reviewed by the management.

6. **Environmental Issues:** As the company is not in the field of manufacture, the matter relating to produce any harmful gases and the liquid effluents are not applicable.

7. **Financial Performance with Respect to Operation Performance:** The Company has all the plans for tight budgetary control on key operational performance indication with judicious deployment of funds without resorting to any kind of borrowing where ever possible.

8. **Cautionary Statement:** Statement in this report on Management Discussion and Analysis may be forward looking statement within the meaning of applicable security laws or regulations. These statements are based on certain assumptions and expectations of future events. Actual results could however, differ materially, from those expressed or implied. **NOTES ON FINANCIAL STATEMENT FOR THE YEAR ENDED 31ST MARCH 2017****NOTE 1: SIGNIFICANT ACCOUNTING POLICIES:****Basis of Preparation of Financial Statements:**

The financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (“GAAP”) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as specified in the Companies (Accounting Standards) Rules, 2006 prescribed by the Central Government, relevant provisions of the Companies Act, 1956 (to the extent applicable), the Companies Act, 2013 (to the extent notified) and guidelines issued by the Securities and Exchange Board of India. As clarified by General Circular No. 08/2014 dated 4th April 2014 issued by the Ministry of Corporate Affairs, financial statements for the year ended 31st March 2014 have been prepared in accordance with the Companies Act, 1956. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

**Presentation and Disclosure of Financial Statements:**

All assets and liabilities have been classified as current & non-current as per Company’s normal operating cycle and other criteria set out in the Revised Schedule VI to the Companies Act, 1956. Based on the nature of products / services and time between acquisition of assets for processing / rendering of services and their realization in cash and cash equivalents, operating cycle is less than 12 months however for the purpose of current/non-current classification of assets & liabilities period of 12 months has been considered as its operating cycle.

**Use of Estimates:**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the application of accounting policies, reported balances of assets and liabilities, disclosure of contingent liabilities as on the date of the financial statements and reported amounts of income and expenses during the period. Management believes that the estimates and assumptions used in the preparation of financial statements are prudent and reasonable. Actual results could differ from those estimates. Any difference between the actual results and estimates are recognized in the period in which the results are known / materialize. Any revision to accounting estimates is recognized prospectively in the current and future periods.

**Fixed Assets:**

Tangible assets are stated at cost of acquisition / construction less accumulated depreciation, amortization and accumulated impairment losses, if any.

Cost of fixed assets includes non - refundable taxes and duties, borrowing cost directly attributable to the qualifying asset and any directly attributable costs for bringing the asset to its working condition for its intended use.

**Depreciation/Amortization:**

Depreciation is provided using written down value method on pro-rata basis at the rates prescribed under Schedule XIV of the Companies Act, 1956 except in respect of the following assets, which are depreciated at higher rates than the rates specified in the schedule XIV consequent to management’s estimate of useful life of the asset. Depreciation on individual assets whose cost does not exceed five thousand rupees has been provided at the rate of hundred per cent in the year of capitalization.

**Investments:**

- a) Investments are classified into current and long-term investments.
- b) Investments that are readily realizable and intended to be held for not more than a year from the date on which such investments are made are classified as current investments. All other investments are classified as long-term investments.
- c) Current investments are carried at lower of cost and fair value (net asset value in case of units of mutual fund) determined on category wise basis. Long term investments are carried at cost. However, provision for diminution in value of long term investments is made to recognize a decline, other than temporary, on an individual investment basis. Investments in liquid mutual funds are classified as cash and cash equivalents.
- d) The cost of investments comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.
- e) Investment transactions are accounted for on a trade date basis. In determining the holding cost of investments and the gain or loss on sale of investments, the Weighted Average method is followed.

**Revenue Recognition:**

- a) Sales of goods are recognized when significant risks and rewards of ownership of the goods have passed to the buyer that coincides with delivery and are recorded net of sales tax, rebates, trade discounts and sales returns.
- b) Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

**Borrowing Costs:**

Borrowing costs that are directly attributable to the acquisition, construction or development of a qualifying asset are capitalized as part of the cost of the respective asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest, exchange difference arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost and other costs that an entity incurs in connection with the borrowing of funds.

**Taxes on Income**

- a) Tax expenses comprise of current tax, deferred tax charge or credit and adjustments of taxes for earlier years.
- b) Provision for current tax is made as per the provisions of Income Tax Act, 1961.
- c) Deferred tax charge or credit reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years and are measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits. Deferred tax assets are reviewed for the appropriateness of their respective carrying amounts at each balance sheet date. At each balance sheet date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has

become reasonably/ virtually certain as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

### Cash and Cash Equivalents:

Cash and cash equivalents include cash in hand, bank balances, deposits with banks (other than on lien) and all short term highly liquid investments / mutual funds that are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

### Cash Flow Statement:

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

### Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of shares which could have been issued on conversion of all dilutive potential equity shares.

### Provisions and Contingent liabilities

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on management's estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates. Provisions are recognized in the financial statements in respect of present probable obligations, for amounts which can be reliably estimated.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Company.
