## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

- 1. Economy and Markets:** A sharp decline in commodity prices, choppy financial markets and volatile currencies were key highlights of 2015-16. Expectations of rate hikes in the US, depreciation of the Chinese currency along with fears of China's hard landing kept financial markets on edge. Global macroeconomic parameters remained uncertain as downward risks to growth in advanced economies emerged while emerging economies were already struggling with weak growth, high inflation and tight financial markets. India's growth story on the contrary remained reasonably positive due to stable domestic consumption, lower commodity and energy prices and hence improving macroeconomic parameters. Inflation, fiscal deficit and current account balance exhibited some signs of improvement. Unfortunately, these positive factors were accompanied by two consecutive years of drought across many parts of India, rising non-performing assets (NPAs) of banks and low credit growth. The Reserve Bank of India (RBI) cut policy rate by 50 basis points in FY2015, 75 basis points in FY 2016 and by further 25 basis points in April 2016. However, due to continued stress of high NPAs on bank balance sheets, this did not translate into equivalent reduction in interest costs for borrowers and curtailed incremental lending by the banks. As result of slowdown in the economy both in India and globally, there was also slowdown in financial sector in India. As a result, company restrained itself from taking any major exposure in its core areas of business. However, company is making all the efforts to increase the business volume as well as improve the profitability.
- 2. Financial Review:** During the year under review, income from operations stood at ₹37,32,280/- and Profit after tax stood at ₹9,32,071/-.
- 3. Risk And Concern:** Bullish trend in Equity Market, Commodities and Real estate will effect volume and profitability of Government Securities business. Changes in the rate of Interest will affect Company's Profitability.
- 4. Internal Control System and their adequacy:** The internal control system is looked after by Directors themselves, who also looked after the day to day affairs to ensure compliance of guide lines and policies, adhere to the management instructions and policies to ensure improvements in the system. The Internal Audit reports are regularly reviewed by the management.
- 5. Environmental Issues:** As the company is not in the field of manufacture, the matter relating to produce any harmful gases and the liquid effluents are not applicable.

#### **Earnings per share**

Basic earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic

earnings per share and also the weighted average number of shares which could have been issued on conversion of all dilutive potential equity shares.

### Provisions and Contingent liabilities

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on management's estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates. Provisions are recognized in the financial statements in respect of present probable obligations, for amounts which can be reliably estimated.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company.
